## LubriSource EQUIPMENT

 <p>Transfer pumps, mist lubrication and hose reels.</p> 	 <p>Centralized lubrication systems, LHL grease systems.</p> 
 <p>Desiccant breathers for hydraulic and lubrication systems and gearboxes.</p>	 <p>Ultra clean vacuum device oil sampling.</p> 
 <p>High/medium/low pressure filters, in-tank &amp; return-line filters, spin-ons and tank accessories.</p>	 <p>Single point lubricators.</p> 
 <p>Dual line lubrication systems.</p> 	 <p>Precision spray lubrication.</p> 
 <p>Centralized automatic lubrication systems with series progressive divider valves and fluid transfer pumps.</p>	 <p>Fluid management products and lube assessment programs.</p> 
 <p>Fluid storage systems and transfer carts.</p> 	 <p>Multipoint, dual line circulating oil and spray systems.</p>

## LubriSource MAINTENANCE & SERVICES

**SYSTEM DESIGN**  
Complete design of lubrication systems in CAD.

**INSTALLATION**  
Turn key installation of most lubrication systems.

**TRAINING**  
Training classes cover assembly and installation, along with how to maintain systems in your plant.

**SERVICE / MAINTENANCE**  
We offer monthly, quarterly or semi-annual service contracts on specific machinery or the entire plant. This includes part replacement, oil analysis and equipment inspection.

**OIL ANALYSIS PROGRAM**

**LUBE SURVEYS**
